PRIMO

TRIANGLE
SURGICAL LTD

Exceeding Expectation

Triangle Surgical is the UK's leading supplier of Liposuction equipment and instrumentation, we are also very proud of the trading partnerships forged in our ever expanding export market.

A family company that believes strongly in the quality of our products and the longevity of our relationships, our aim is to exceed your expectations and you can trust our advice as we have over 100 years of combined experience in this speciality alone.

CETTA

The outstanding quality of the CETTA disposable product range is immediately apparent; high grade stainless steel, reassuring weight, excellent balance and superb finish. We strongly believe CETTA is not only the best disposable product available worldwide but is also far superior to the majority of re-usable brands. For Cetta products please refer to the product codes in blue.

PRIMO

The reusable Primo range is as versatile as you need it to be, we will create any bespoke size and style upon request. The range shown in this catalogue is a guide to the most popular products we currently provide, many are regular stock items for fast delivery. Durable, high quality Stainless Steel shafts, reassuringly weighty and balanced Aluminium handles. For Primo products please refer to the product codes in gold.

FLUID INFUSION

Infusion needles

High grade stainless steel. 6 spaced holes in a spiral around the tip. For fluid infusion using leur lock syringes, handles or giving set tubing.

CETTA RANGE		PRIMO RANGE	
Product Code	Product Code	Diameter (mm)	Length (cm)
CETTA INF/N 215	PRIMO INF/N 215	2	15

Curved

Product Code	Product Code	Diameter (mm)	Length (cm)
CETTA INF/N1.623CRV	PRIMO INF/N1.623CRV	1.6	23

Infusion handle non valve

Comfortable handle to link tubing to needle, lack of valve reduces leakage. Single shaft allows infiltration and suction.

Product Code
CETTA INF/HAN W/O

Cetta handle: POM

Product Code
PRIMO INF/HAN W/O

Primo handle: Aluminium

Infusion handle with Valve

This infusion handle, with on/off button, offers maximum control for infusion during the tumescent technique.

Product Code
PRIMO HUN/HAN

POWERED SUCTION

One piece cannulae

High grade Stainless Steel shaft, for aspiration with powered suction.

Cetta handle: POM

Primo handle: Aluminium

Mercedes

Three holes spaced evenly around the tip. The most popular tip style.

30 Hole harvest cannula

Harvest fat in smaller parcels, reduces blocking.

Lantern

Chinese lantern shaped tip, useful for fibrous areas and popular in Gynecomastia procedures.

The Scream

Two holes above a single hole, a cannula lookalike of the famous Munch painting.

Submental

One hole, flat backed for areas closer to the skin.

One hole

A single downward facing aperture.

TOOMEY SYRINGE SUCTION

Toomey Cannulae
High grade Stainless steel shaft,
for aspiration with 60cc Toomey syringes.
Cetta handle: POM

Primo handle: Aluminium

Mercedes tip

Three holes spaced evenly around the tip. The most popular tip style.

30 Hole harvest cannula

Harvest fat in smaller parcels, reduces blocking.

Submental

One hole, flat backed for areas closer to the skin.

Open harvest

Guarded fully open tip, designed specifically for tissue harvest.

SYRINGE LOCKS

All 60cc locks also fit 50cc BD

60cc syringe lock - single arm

Product Code	Product Code	Syringe Size(cc)
CETTA SNAP10	PRIMO SNAP10	10cc
CETTA SNAP20	PRIMO SNAP20	20cc
CETTA SNAP60	PRIMO SNAP60	60cc

60cc syringe lock - double arm

Fixes to syringe base for added security.

Product Code	Product Code	Syringe Size(cc)
CETTA DOUBSNAP60	PRIMO DOUBSNAP60	60cc

60cc syringe lock - 2 step

Product Code	Product Code	Syringe Size(cc)
CETTA2STEP	PRIMO2STEP	60cc

Square syringe locks

Product Code	Syringe Size(cc)
PRIMOSQUARE10	10cc
PRIMOSQUARE30	30cc
PRIMOSQUARE60	60cc

MICRO HARVEST

Tissue harvest using luer lock syringes.
All Triangle Surgical luer lock bases
have a thumb platform for comfort and
orientation.

30 Hole harvest cannula

Harvest fat in micro droplets for fine graft re-injection.

Submental

One hole, flat backed for areas closer to the skin.

Product Code	Product Code	Diameter (mm)	Length (cm)
CETTA 322S/LL	PRIMO 322S/LL	3	22

Mercedes tip

Three holes spaced evenly around the tip.
The most popular tip style.

Product Code	Product Code	Diameter (mm)	Length (cm)
CETTA 215MLL	PRIMO 215MLL	2	15
CETTA 315MLL	PRIMO 315MLL	3	15
CETTA 322MLL	PRIMO 322MLL	3	22

Open harvest

Guarded fully open tip, designed specifically for tissue harvest.

CETTA 315LL/30hole	PRIMO 315LL/30hole	3	15

CELL SELECT CANNULAE RANGE

The ingenious Cell Select micro harvest cannula range is specifically designed to capture smaller aliquots of healthy fat cells via numerous 1mm micro-ports. The harvest of smaller cell packages results in easier, smoother re-injection through finer injection cannula. The spacing and increased surface area of the apertures per cannula tip results in an effective and constant collection speed, and greatly reduces blocking.

Level 1 - Gentle Rasp

Product Code	Product Code	Holes	Diameter (mm)	Length (cm)
CETTA 2515G	PRIMO 2515G	21	2.5	15
CETTA 320G	PRIMO 320G	30	3	20

Micro Drop

Curved obtuse tip for accurate placement of micro droplets.

Product Code	Product Code	Diameter (mm)	Length (cm)
CETTA 1285MD	PRIMO 1285MD	1.2	8.5

06

PRIMO or CETTA we can produce excellent products quickly so...
Why not design your own **unique** cannula

DISSECTORS

V-Dissector

Undermining fibrous tissue, widens at the tip and ideal for breast surgery.

CETTA RANGE		PRIMO RANGE	
Product Code	Product Code	Diameter (mm)	Length (cm)
CETTA VDISS167	PRIMO VDISS167	16G	7
CETTA VDISS169	PRIMO VDISS169	16G	9

W-Dissector

For undermining small areas of fibrous tissue, less aggressive and finer than V Dissector.

Product Code	Product Code	Diameter (mm)	Length (cm)
CETTA WDISS	PRIMO WDISS	16G	8.5

HAY Tunnel Dissector

For blunt dissection tunnelling when a V-dissector may be considered aggressive i.e. around Implants. Slight upward curve to tip in order to inhibit direct forceful contact, comfortable handle with orientation marking.

Product Code	Product Code	Diameter (mm)	Length (cm)
CETTA HTD	PRIMO HTD	2	12

ADAPTORS

Toomey to luer lock adaptor

Transfer aspirate from 60cc Toomey to any size luer lock syringe.

Product Code	Product Code
CETTA MIC/LL/S	PRIMO MIC/LL/S

Luer lock to luer lock adaptor

Transfer between any size luer lock syringes.

Product Code	Product Code
CETTA MIC/LL/LL	PRIMO MIC/LL/LL

Toomey syringe to luer lock needle adaptor

Product Code	Product Code
CETTA MIC/LL/N	PRIMO MIC/LL/N

ACCESSORIES

Trigger injection gun 10cc/5cc

Trigger mechanism controlled injection from 10cc BD syringe or 5cc BD syringe (adaptor included), eases the physical pressures of re-injection and controls accidental over filling.

Product Code	Capacity (cc)
PRIMO TG105	5, 10

Syringe rack

Autoclavable steel, holds 60 10cc syringes or 12 60cc syringes.

Product Code
PRIMO MIC/10CCR
PRIMO MIC/60CCR

The golden gun 10cc

Enjoy being Scaramanga with your very own golden gun. Thumb controller injection from 10cc BD syringe, eases the physical pressures of re-injection and controls accidental over filling.

Product Code	Capacity (cc)
PRIMO GG10	10cc

07

Packing and Certification:

Double packed, ETO sterilised 5 year shelf life,
four traceability stickers included.

Master Indemnity Registration number is IFA814

Purchasing Systems Include

Quality Validation

All of our products meet the required CE
certification. CETTA is grade 2 sterile
product certified.
